SAFETY

WARNING

Driver distraction can lead to accidents and injuries.

Operating the RADICAL system may distract the driver's attention from the prevailing traffic conditions! Connecting, changing or inserting data carriers may equally distract the driver's attention from the

Connecting, changing or inserting data carriers may equa prevailing traffic conditions.

WARNING

Always ensure that loudspeaker volume allows sounds from outside the vehicle to be heard at all times (e.g. signal horns or sirens).

WARNING

Incorrect assembly or installation of the RADICAL system may result in damage to the RADICAL system or to the vehicle electronics. The device should only be installed by qualified personnel, authorized by RADICAL.

CAUTION

This RADICAL system is intended solely for operation with an on-board voltage of 12 V DC. Operating the RADICAL system at any other onboard voltage may result in damage to the RADICAL system or to the vehicle electrical system.

CAUTION

Dismantling or modifying the RADICAL system may result in damage to the device or the vehicle. Opening or modifying the device by personnel not authorized by RADICAL will invalidate the warranty.

In the event of a malfunction or fault, please contact an authorized RADICAL dealer.

CAUTION

Charging and connecting cables for mobile devices may cause an obstruction to the driver.

These should be positioned to ensure that the driver's movement is not impeded.

CAUTION

The driving recommendations and traffic signs displayed on the RADICAL system may differ from the actual situation. Traffic signposts and traffic regulations take precedence over the driving recommendations and signs displayed on the RADICAL system.

Adapt your driving behaviour and speed to the prevailing visibility, weather, road and traffic conditions.

DEVICE ON/OFF

AUTOMATIC ON/OFF

The RADICAL system is switched on with vehicle ignition.

The RADICAL system is switched off when the ignition is turned off or when the ignition key is removed.

NOTE

Pressing the power button on the front of the device does not switch it off. This only turns the screen off; the power connection to the device is maintained.

HOME SCREEN

- 1. Home
- 2. USB connection status
- 3. Bluetooth connection status
- 4. WiFi connection status

- 6. Task manager
- 7. Back

HOME SCREEN NAVIGATION

You can flick through the pages of the home screen by swiping to the left or right.

Tap on the relevant icon on the home screen to access the desired function.

The wallpaper can be changed by pressing and holding on a blank area of the home screen.

	Choose wallpaper	from			
	Local wallpaper	Gallery	Live Wallpapers	Wallpapers	
0					
4					

A

You can access the quick menu by swiping downwards.

Many settings can be quickly accessed through the quick menu.

The task manager icon opens the task manager.

APPS AND WIDGETS

APPS

You can open the apps list page by tapping on the apps icon.

By pressing and holding on an app icon, the app icon can be pinned to the home screen.

Æ

To remove the app icon from the home screen, press and hold the icon and drag it to the trash.

You can open an app by tapping on it.

WIDGETS

Tap on the widget tab to open the widget list page.

BLUETOOTH

PAIRING A BLUETOOTH DEVICE

- 1. Tap on the Bluetooth icon to start the Bluetooth function.
- 2. Activate Bluetooth on your mobile phone and check that your device is set to visible.
- 3. Tap the search icon to look for Bluetooth devices in your vicinity.
- 4. The name of your mobile device should now be shown in the list. Tap on the name of your device to start the pairing process. If your device is not listed, try searching again for Bluetooth devices in your vicinity.
- 5. You should now see a pairing message on your mobile phone. Enter the password for Bluetooth pairing into your mobile phone.
- 6. When your mobile phone has been paired, tap on the phone book icon and then on the import icon to import your contacts. (N.B. Android users will see a message on their mobile phone requesting authorization. Confirm with 'authorize') (N.B. iOS users must manually activate synchronization in the connection menu of their mobile phone)

ANDROID USB CONNECTION (INITIAL CONNECTION)

- 1. Go to settings on your smartphone.
- 2. Activate the developer options on your Android smartphone.
- 3. Activate USB debugging.
- 4. Open the Easy Connection function.
- 5. Select Android USB.

6. Connect your smartphone to your RADICAL device via USB. (For first-time connections, your smartphone must be connected to the internet.)

7. Download and install the Easy Connection App from the Google Play Store.

8. The Easy Connection App is automatically started after connection with Radical device is established. The setup is completed.

ഷ് 1 Android WiFi ortable Wi-Fi hotspot

Wi-Fi CONNECTION (INITIAL CONNECTION)

- 1. Go to the connection settings on your smartphone.
- 2. Activate mobile hotspot.
- 3. Open the Easy Connection function.
- 4. Select Android WiFi if you use an Android smartphone, or iPhone WiFi if you use an iOS smartphone.
- 5. Connect your RADICAL device to your smartphone's WiFi hotspot.

6. Activate the Airplay function on your iPhone. This will enable mirroring and the device can be operated through your smartphone. For Android devices, connect your smartphone to the RADICAL device via USB, maintain the USB connection until the Easy Connection APP has started on your smartphone and can be seen on your RADICAL device. You can now disconnect the USB; the smartphone is mirrored, and the device can be operated through the RADICAL device, or if preferred, through your smartphone.

APK INSTALLER

- 1. Download the desired APK and copy into an external medium of your choise.
- 2. Connect the external medium to your RADICAL device.
- 3. Open the APK installer.

7. After the APK has been installed, you can either open the APK directly, or complete the process by pressing DONE.

Adjust the display brightness of the background for different timing of daytime and nighttime.

A

- 1. The shutdown delay is 0 minute, 10 minutes, 20 minutes, 30 minutes, 60 minutes respectively. Shutdown delay can be adjusted in accordance to preference.
- 2. Additional touch panel. User can choose to on or off the touch assist. The touch assist has 7 most commonly used options and is displayed on top of the screen at the interface where it provides the user easy maneuver of the machine.
- 3. Reverse Volume Suppression. To adjust the volume while at the reverse position, select Reverse Volume Suppression. There are four options available namely None, Weak, Medium and Strong. Selecting None means there will not be any changes to the current defaulted volume. Selecting Strong means lowering down the reverse volume at most.
- 4. Reset All Settings. Touch Reset All Settings, at the popup dialog, select confirm. When the device restarts, the system will restore to factory settings. All your settings will be removed.

Volume

Volume options for respective systems can be adjusted in accordance to desire.

A

Audio Settings

Enter sound effect interface by touching "Sound Effect" to access different sound effect modes.

Change or add language

Press on language to open the language list. You can add a new language to the list by selecting 'add language'. Select the language that you wish to add to the list. The position of the languages shows the order in which the languages are placed: The primary language which is also the display language is placed first. To use a different language as the display language, press on the desired language and drag it into the first place.

A

INSTALLATION NOTES

CAUTION:

- The installation of the RADICAL system should be carried out by an authorized installer. Specific knowledge and tools are required to do the installation. Incorrect installation can cause damage to the vehicle and the RADICAL system.
- Correct functioning can only be guaranteed when you use the RADICAL original accessories included in the kit or those optionally available. The RADICAL system and the original accessories must under no circumstances be modified or altered in any way. Inappropriate actions can cause damage to the vehicle and the RADICAL system.

NOTE:

- The RADICAL system is not compatible with vehicles, which are equipped with a hybrid or electro drive ex factory.
- The RADICAL R-D211 is equipped with an integrated DAB+ receiver. To make use of this you
 will need a suitable DAB antenna (included in kit) that must be connected to the
 RADICALsystem.

REMOVAL WORK AND PREPARATION

NOTE:

- Remove the ignition key and keep it outside the car until the installation is finished.
- Please wait for ca. 10 minutes until the CAN bus system is completely shut down, before you start with the deinstallation of the original device.
- Start with the deinstallation of the original device.

NOTE:

- Make sure that all connectors at the rear of the ZENEC system have sufficient room and are not bent.
- Connectors without a retaining mechanism must be additionally secured with insulating tape.

	caused system software crash	device to factory settings

Note:

If you have any further questions or problems please check the FAQs for your RADICAL device.

You can find these at www.my-radical.com

STATUTORY RIGHTS AND WARRANTY

Dear customer,

Please read the warranty terms below carefully. Should your RADICAL product require warranty service, please return it to the retailer from whom it was purchased or else, the distributor of your country. Do not send-in any product to RADICAL directly. This RADICAL product is protected against defective materials and/or improper workmanship by a manufacturer warranty for the period of 2 years from date of purchase at retail, to the original buyer. The statutory consumer protection regulation ("EU statutory warranty") remains unaffected by the provided manufacturer product warranty. For the treatment of warranty related claims, the dealer / importer needs to register the device with an RMA number and provide a valid product serial number together with the original slip of purchase or the invoice, showing the purchase date.

Not covered by the manufacturer warranty are damages due to:

1. Unauthorized or unapproved installation, incorrect audio or mains connection(s).

2. Defects caused by exposure of product to moisture, water and organic fluids ("solvents"), excessive heat and prolonged exposure to sun rays, as well as excessive dirt or dust.

3. Mechanical defects caused by accidents, fall or impact.

4. Damage due to unauthorized repair attempts and modifications of product not explicitly authorized by the manufacturer.

5. Damage caused by normal "wear and tear" over time.

This warranty is limited to the repair or the replacement of the defective product at the manufacturer's option and does not include any other form of damage, whether incidental, consequential or otherwise. Damages caused by improper packaging during transportation of product back to dealer or importer are not covered under the warranty. Any compensation claims of consequential damages to other auxiliary devices or components in the dashboard caused by the device directly or indirectly, are excluded.

Not covered by the manufacturer are consequential costs arising from handling of product to conduct warranty service labor like for example the un-installation and re-installation of devices, to cure a hardware failure or other defect.
